<b>REGISTRATION</b>	<b>UC LOBBY</b>	<b>7:45 – 8:30 AM</b>
<b>CONTINENTAL BREAKFAST</b>	<b>UC 202 – 203</b>	<b>7:45 – 8:30 AM</b>
<b>LUNCH AND NETWORKING</b>	<b>UC 202-203</b>	<b>12:45-1:30 PM</b>
<b>EXHIBITORS</b>	<b>UC ATRIUM</b>	<b>8:45 – 2:15 PM</b>

**OPENING REMARKS & WELCOME UC 202 – 203 8:30 – 8:45 AM**

**BREAKOUT SESSIONS ONE 8:50 – 9:50 AM**

**Session 1A: UC 201**

21st Century Health: Digitalize Your Health Lessons  
Anita Scheffer – Syosset School District

*Session Objectives: At the end of the session, participants will be able to...*

Objective 1: Compare various new websites that can be used to enhance health lessons

Objective 2: Gain new perspective for using technology in the health classroom

*Session Description:*

Participants will be introduced to a variety of websites and will be able to utilize the information and tools they learn in this workshop to develop lessons to be used in their health classes. Health education is no exception when it comes to digital awareness and citizenship. Students are learning at a different pace and we need to keep up with them!

**Session 1B: UC 211-212**

2011 HealthNets Mini-Grant Winner Mini grant  
Chris Homer, Cold Spring Harbor School District and the  
Red Watch Band – Todd Benjamin, Jericho Wellness Coalition  
Teen Wellness Trainers Program – Nassau County School Wellness Coalition

*Session Objectives: At the end of the session, participants will be able to...*

Objective 1: Review the Teachers Pay Teachers Program

Objective 2: Identify aid for alcohol related problems amongst peers

*Session Description:*

In this session presented by three 2011 HealthNets Mini-Grant Winners, participants will review a variety of education materials available on the Teachers Pay Teachers website and discuss how materials and strategies can be adapted to health education. The mission of the Red Watch Band is to provide campus community members with the knowledge, awareness, and skills to prevent student toxic drinking deaths and to promote a student culture of kindness, responsibility, compassion, and respect.

**Session 1C : UC 213-214**

**Sink or Swim: A professional conversation About Making it Anywhere**  
LarissaRenart – Hempstead School District

**Session Objectives: At the end of the session, participants will be able to...**

Objective 1: Participants will be able to implement new, refreshing activities into their classrooms to promote positive outcomes.

Objective 2: Participants will share tried and true strategies for classroom management and behavior.

**Session Description:**

Come in with one idea and leave with many. Every teacher has something that works in the classroom. At the same time, there may be something that has proved to be a little more challenging. Join us for a professional exchange of ideas, methods, techniques, and encouragement.

Have you managed to get your students to arrive to class on time but wonder how you are going to get them to do their homework? Do you have a great activity for nutrition but missing that same spark in your disease unit? Join us for a session of sharing as we get together to offer what has worked in our classrooms and learn from others what we can do about the things that still challenge us.

**Session 1D: UC 215-216**

**The National Sexuality Education Standards: Positive Messages for a Healthy Future**  
Heather Simonson - Sexuality Education and Counseling Services

**Session Objectives: At the end of the session, participants will be able to...**

Objective 1: Accurately describe the rationale for the national sexuality education standards.

Objective 2: Identify at least three characteristics of effective sexuality education.

**Session Description:**

More than ever, sexuality-related issues are affecting the educational environment, yet there is tremendous variation among state health education requirements, let alone specifications for sexuality education despite the fact that all youth need and deserve sexuality education. While there are materials and resources specifically for parents and adolescents, educational professionals are still largely unsupported and without resources to successfully address these changes. The Future of Sex Education has released the first-ever National Sexuality Education Standards: Core Content and Skills, K-12. These standards will support the implementation of more effective and comprehensive sexuality education across the United States to insure that all students receive the information and skills they need to make healthy choices. This presentation will provide an overview of comprehensive sexuality education, explore the barriers of implementation and support participants in how to best utilize them within their community.

**MORNING GENERAL SESSION: UC 201 10:00 – 11:00 AM**

**What We're Missing: How Neglect, Abuse and Trauma Can Play Out in the Classroom**  
Anthony Zenkus – CCAN – Coalition Against Child Abuse and Neglect

**Session Objectives: At the end of the session, participants will be able to...**

Objective 1: To heighten awareness of how trauma and adversity at home and in the community can contribute to problem behaviors in the school environment

Objective 2: identify when referrals need to be made and how to work with the child and the family to improve outcomes at home and in school.

**Session Description:**

Could ADHD really be misdiagnosed trauma? Should conduct disorder be treated as a behavioral problem, or a family problem? Research from institutions such as Harvard Medical School are showing how adversity at home in the form of neglect, abuse and trauma can negatively impact the brain development of children and impair their cognitive and behavioral functioning. This impairment can play out in the classroom in the form of behaviors, sometimes destructive, that mask the true issues. Untreated, these problems will only get worse as time goes on. What can educators and other professionals do to ensure that we get it right and get these children the help they need?

**BREAKOUT SESSIONS TWO**

**11:10 AM – 12:10 PM**

**Session 2A: UC 201**

Motivating Generation Z Through Technology and Creative Lesson Ideas  
Jessica Famularo – Yonkers School District

**Session Objectives: At the end of the session, participants will be able to:**

Objective 1: Awareness of common techniques used in advertising in teens

Objective 2: View common reality show clips and discuss the influence on teens health

**Session Description:**

Our biggest challenge as health educators is being able to relate to generation "z" the internet generation. This workshop will focus on lesson ideas using technology to help teachers connect more effectively with today's teenagers. Participants will view clips of common commercials and reality shows and describe the influences on teen health. In addition, participants will learn hands on activities that bring emotions to their students in health.

**Session 2B: UC 211-212**

Highway to Health - Take Your Classroom from 0 to 60 Using These Techniques  
Robyn Jaffe - Walt Whitman High School

**Session Objectives: At the end of the session, participants will be able to...**

Objective 1: Participants identify various teaching methods for implementation in the classroom.

Objective 2: Participants assess value of techniques through discussion.

**Session Description:**

“Highway to Health” will provide health teachers with interactive teaching strategies that place students at the center of their learning experience. I will provide participants with various teaching methods for use with students at the secondary level. Participants will step into the role of students as we bring these strategies to life. Activities will focus on building and strengthening health skills, including decision-making, communication and goal-setting. Participants will be able to use these techniques across various content areas including alcohol and other drugs, human sexuality, mental and emotional health and unintentional injury prevention.

A PowerPoint presentation will serve as the “road map” for the workshop. Participants will also receive a “manual”, containing the strategies we practice. At the conclusion of the workshop, I will facilitate a discussion with participants about the methods, their effectiveness and how they can be adapted to meet the needs of a diverse student population.

Session 2C: UC 213-214 \*2010 HealthNets Mini-Grant Winner

Role of Health Teachers in Skin Cancer Education and Prevention  
Victoria Seigel – Mollie Biggane Melonoma Foundation - Suffolk Community College

*Session Objectives: At the end of the session, participants will be able to...*

Objective 1: describe how skin cancer can be identified

Objective 2: identify the public health crisis of skin cancer and prevention in young people

*Session Description:*

Approximately one person dies from skin cancer per hour in this country. Concurrently, many people do not follow sun protective behaviors. In fact, many people seek the tanned look, and the use of tanning salons has tripled in the last decade. This is a serious public health concern and health teachers are in an excellent position to teach the public about skin cancer prevention and to refer people to be examined by health care professionals

**LUNCH & NETWORKING UC 202 – 203 12:15–1:00 PM**

**AFTERNOON GENERAL SESSION UC 201 1:10– 2:10 PM**

*Sponsored by New York Community Bank Foundation*

Hyped Up Teaching Strategies: Middle School - High School Connection  
Scott Cooper & Ryan Erbe – Clarkstown Central School District

*Session Objectives: At the end of the session, participants will be able to...*

Objective 1: identify strategies to connect middle and high school curriculum

Objective 2: identify how to inspire and energize their students through the use of music and

*Session Description:*

This is a high-energy, dynamic and interactive session, which focuses on youth risk factors, while demonstrating how to use music to enhance your lessons. This presentation will actively engage participants in new, creative and exciting learning activities to utilize in your middle or high school health classroom to help supplement your curriculum.

**ELEVENTH ANNIVERSARY CELEBRATION!! UC 201 2:10 – 3:00 PM**

Closing Remarks, Networking, Drawing for iPad  
HealthNets Committee

**Please complete the conference evaluation form found in your folder  
and return it to the registration desk.**

**Certificates of Attendance will be distributed after the Tenth Anniversary Celebration!**

## 2012 PRESENTER BIOGRAPHIES

### **Andrea Allen**

Andrea Allen is a veteran health educator currently teaching at Commack Middle School. Andrea holds a masters degree in Health Education.

### **Chris M. Homer**

Chris Homer has been a health educator for 25 years including being the only full time health educator at Cold Spring Harbor Schools for the past 16 years. He has taught at Hofstra University and Adelphi University for 17 total years. He was director of Camp Discovery (a camp for children of alcohol and other drug dependent parents and or children of parents who have or have died from HIV/AIDS).

### **Anita Scheffer**

Anita Scheffer has been teaching for over 10 years and is a Health educator at Syosset Middle School. Anita holds a masters degree in Health Education from Hofstra University and A school Administration Masters from University of Stonybrook.

### **Larissa Renart**

Larissa Cosenza graduated from Adelphi University in 2005 with a B.S. in Health Education and her Master's Degree at Teachers College. For the past five years she has been working at Hempstead High School where she continues to be passionate about serving a high needs population and eager to share her success.

### **Heather Simonson**

Heather, LMSW, is a Clinical Social Work/Therapist for Sexuality Education and Counseling Services (SECS) and offers the essentials for every age and stage of life. My mission is to provide comprehensive, honest and sex-positive health education and counseling that addresses the unique needs of the whole person, family and community. Heather is a NYS Licensed Social Worker and AASECT Certified Sexuality Educator. She earned my Masters in Social Work from Stony Brook University.

### **Anthony Zenkus**

Anthony, MSW, is the Coordinator of Education and the Coalition Against Child Abuse and Neglect (CCAN). Part of his responsibility is to train parents, professionals, and concerned adults how to recognize, prevent, and react responsibly to child abuse and child sex abuse at home, on the Internet, and in the community. He is also a specialist in Substance Abuse and affiliated with Project Families Together.

### **Jessica Famularo**

Jessica is a Health Teacher in the Yonkers Public Schools. She has taught for over 11 years both Physical Education and Health Education in private and public schools in New York. She graduated from Penn State in August 2000 and Adelphi University in May 2002. In addition to teaching Jessica is also a personal trainer and aerobics instructor. Jessica enjoys mentoring new teachers with classroom management techniques and this is her second presentation at the HealthNets Conference.

**Robyn Jaffe**

Robyn received her Master's Degree in Health Education from Hofstra University. She is an active member in the New York State Association for Health, Physical Education, Recreation and Dance.

**Victoria Seigel**

Victoria is an Associate Professor in the Nursing Department of Suffolk Community College. She earned her Doctorate in Education from Dowling College. She has been involved with the Mollie Biggane Fund for some time and has been presenting to various audiences ways to be more aware and proactive in preventing skin cancer.

**Scott Cooper**

Scott Cooper, a Health Education teacher, with ten years of teaching experience also serves as the District Health Coordinator and Health Education Chairperson in the suburban district of Clarkstown, 25 miles north of New York City. Coming from a management and advertising background, Scott decided to further his education at Adelphi University and begin a career focusing on health and wellness. Scott is instrumental in further developing Clarkstown's comprehensive K-12 curriculum, has presented at many local and state conferences.

**Ryan Erbe**

Ryan is a Middle School Teacher with Clarkstown Public Schools in Rockland County. He has nine years of teaching experience. He earned his Master's Degree in Health Sciences from Ball University. One of his endeavors is to reduce adolescent tobacco usage. He has been published in the Journal of School Health 2009.

## 2012 EXHIBITORS

### Adelphi University Graduate School

Adelphi University's Graduate Programs offer degrees in areas such as School Health Education, Community Health Education, Physical Education and many more. The Admissions staff at Adelphi provides complete and in-depth information about all the programs offer. To obtain further information, please contact the Office of Admissions.

**Contact Information:**

Office of University Admissions  
114 Levermore Hall  
Garden City, NY 11530  
Phone: 1-516-877-3050  
<http://admissions.adelphi.edu/>

### American Cancer Society

The American Cancer Society is the nationwide, community-based, voluntary health organization dedicated to eliminating cancer as a major health problem by preventing cancer, saving lives, and diminishing suffering from cancer, through research, education, advocacy, and service.

Coalition Against Child Abuse & Neglect at The Safe Place

The agency's goal is to protect children against abuse and neglect with compassionate support and innovative, professional programs and services. Since its founding in 1979, CCAN has been a center for child abuse prevention and child victim advocacy. As a voice for all children on Long Island, CCAN advocates for enhanced prevention, intervention and treatment services and policies for abused and neglected children. In an effort to fill in service gaps, CCAN provides direct services to assist child victims and their families recover from their traumatic experiences. CCAN is a leading provider of professional and community training on child abuse recognition, response and prevention. CCAN is a member of the National Network of Children's Advocacy Centers, Prevent Child Abuse-New York State, and Long Island's United Way.

The Maurer Foundation for Breast Health Education

Since 1995, The Maurer Foundation has been dedicated to raising awareness through our mission of Breast Health Education. Responding to the need in her own practice, breast surgeon Dr. Virginia Maurer first made breast health education programs available to her patients and their families. The success of these programs encouraged her to reach out to the general public, but particularly to adolescent women through high school programs. Dr. Maurer believes that the choices we make early in life can affect our future breast health. Since 1995, The Maurer Foundation has been serving the community as a separate not-for-profit organization, for which Dr. Maurer actively participates as Founder, motivator and an inspiration.
