

Adelphi University Mentoring Program

Serving LGBTQ+ Students

The Adelphi University Mentoring Program enhances who students already are. In collaboration with AU's Diversity Committee and the Office of Academic Services and Retention, the Mentoring Program welcomes LGBTQ students. Students are skillfully paired with mentors who will help guide and nurture them to help ensure their collegiate success.

Through training, structured group activities and ongoing conversations, mentors will be well equipped to help mentees successfully navigate their college careers, and help guide their decisions, assisting with retention and graduation.

Potential mentors and mentees must apply.
