The Artivism presentations made me feel enlightened and more aware of all the different problems that we face in the world. The Artivism presentations are a great way to bring awareness to these issues and to also learn about the people who are affected by these problems. The Artivism presentations also taught me how important it is to stand up for what is right and to never give up. I especially enjoyed the presentation on the declining sea star population and the efforts being made to save them. This presentation was very inspiring and made me realize how important it is to take action to protect the environment.

I was especially moved by the presentation on the power of art in prison. The inmates were able to use art as a way to express themselves and to find meaning in their lives. This presentation was a powerful reminder of the importance of human connection and the power of art to bring people together.

I also really enjoyed the presentation on the use of art in restorative justice. The presentation was very inspiring and made me realize how important it is to focus on rehabilitation instead of just punishment. The presentation also taught me the importance of listening to others and learning from their experiences.

Overall, I really enjoyed the Artivism presentations and I look forward to attending more in the future. I think it is important to learn about the power of art in making a positive impact on the world.
