**Welcome to the second issue of “This Is My Classroom.”**

**In this issue, we focus on the recent community activities of our students.**

**At the College of Education and Health Sciences (CEHS), the community is the extension of our classroom. We emphasize community engagement and collaboration. CEHS students are involved in community activities and services early on. Through various community engagements, they become responsible citizens, they hone their leadership skills, and they develop strong socioeconomic skills.**

**Our students are amazing!**
