In conversation with Adelphi's NCAA Senior Woman Administrator for Athletics Emily Dorko '13, MBA '15, Aly Raisman, the third most decorated American gymnast of all-time, will share inspiring personal stories about what it takes to be a champion both on and off the floor. The 27-year-old Olympian will discuss how she has learned to think positively and be resilient even in the toughest times.

Join us for this powerful conversation and learn how Raisman is bringing more attention to the conversation around mental health, promoting body positivity and the mind-body connection.

Keynote Speaker

Aly Raisman

Aly Raisman, team captain of the gold medal-winning United States women's gymnastics team in 2012 and 2016, is the third most decorated American gymnast of all-time.

The most decorated U.S. gymnast at the 2012 Games, Raisman captured the hearts of millions as she became the first American gymnast to win gold in the floor exercise. One of only three U.S. gymnasts to make back-to-back teams in more than 20 years, she helped guide the team to gold and landed a silver medal performance in the all-around competition at the 2016 Games.

Always the leader, Raisman uses her platform to help normalize the conversation around mental health, encourage positive body image and promote the importance of self-care. In her *New York Times* best-selling memoir, *Fierce*, she shares the highs and lows of her journey, including her survival of sexual abuse.
