Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

A student may request a course waiver for foundational (non-clinical and non-research) courses by presenting a transcript and syllabus to the course instructor. The course instructor must be satisfied that the student possesses sufficient knowledge, skill and experience relative to the particular course's content. If the course instructor approves the waiver, the course waiver form is submitted to the Dean or Associate Dean for approval. Course waivers do not shorten the length of the program.
